

CALS BUSINESS BROCHURE

www.calsindia.com

About Company

CALS is not a sudden development, but well thought the venture of a thoroughly skilled Windmill expert – in all the gambit of the machine – right from sourcing land up to erection and maintenance of the turbine.

Unlike others, we have started this company after serving in many Windmill & Solar companies – putting in nearly 20 years of hardcore renewable energy experience.

CALS Renewables is a development firm to develop wind and solar utility-scale, rooftop, solar pump, commercial and industrial solar, wind projects in India.

Arul Balan, Founder, Chairman & Managing Director of CALS with a background in the Renewable Energy profession for 21 years mainly in Wind and Solar. Arul's belief in the Economic and Environmental imperative of transitioning from fossil fuels to clean energy through renewable sources led him to form an Infrastructure & Resources Company to facilitate Large-scale Wind projects and Solar mega projects and rooftop solutions right from early 2017, a passion that remains the same today.

At CALS we aim to be a solution offering firm, capable of executing quality and valuable projects to our customers, society and the environment.

Why & What Makes Us Special

CALS has built on its management team's extensive development experience, pioneering an innovative, unique, sustainable approach to wind and solar projects and setting industry-leading standards for excellence.

● Build Real Users

CALS acts as lead technical counsel, advising on the full range of issues for projects and transmissions. The team provides specialist expertise across all phases of a project.

● Process Easily

We advise on the regulatory regime for the renewable power sector, including licensing requirements, regulation of generation, transmission, distribution and supply and trading arrangements.

"We are an integrated management system certified by IRCLASS"
